HARD WIRED HYBRID IP NURSE CALL SYSTEM.

Aptus Pro

Aptus Pro AU series Hybrid IP is an Australian Standard AS3811 compliant nurse call solution. Designed to meet the needs of both Aged and Acute care, **Aptus Pro** is built on proven technology and based on industry standards. With the convenience of user serviceable components, hot swappable call stations and intuitive programming, the **Aptus Pro** solution is the preferred choice of sites looking to reduce their maintenance costs.

The system is web based and 24/7/365 monitored, allowing for peace of mind that should an issue arise our help desk will be able to respond quickly and efficiently, sometimes before you are aware there is even an issue. With an uptime guarantee we stand by our system reassuring you that your facility is our first priority.

The **Aptus Pro** system is plug compatible with a range of legacy nurse call solutions. Spare parts for Austco,

Questek, Xacom, Gladstone and Sedco systems are available. With a simple head end upgrade we may be able to keep your site operable long after the original manufacturer has stopped supporting your system.

Bring your system up to speed with the next generation **Aptus Pro**, giving life to legacy nurse call.

Always looking for new features **Aptus Pro** has an innovative feature request voting system. You have a say in what features you would like to see and the Alexys community, through popular vote, chooses which features are implemented as a priority.

The **Aptus Pro** system is the next generation of critical messaging, by working together with our community we can continue to innovate and deliver systems that truly assist the delivery of care and help those that need it the most.

THE NEXT GENERATION OF INTEGRATED SOLUTIONS FOR THE HEALTHCARE INDUSTRY.

APTUS CMS

The **Aptus CMS** is a new generation of critical messaging. With native integration to nurse call, email, SMS, Android App, Spectralink (including Pivot), FIP, CCTV and access control, the **Aptus CMS** can inform staff of any critical alarm, allowing management to maintain operations and more critically react to important events in a timely and informed manner.

APTUS AWARE

With Alexys **Aptus Aware** working in conjunction with your Aptus CMS (Critical Messaging System) you will never miss a critical event. The Aptus CMS integrates alarms from many critical systems such as Nurse Call, Fire Alarm, Intruder Alarm, BMS and more. All of your critical alarms can be delivered directly to your Android device. The **Aptus Aware** App delivers the right message to the right person, on time, every time.

APTUS AIR

Wi-Fi is the wireless technology of today. With voice, video and data all sharing the wireless world, now there is a nurse call solution that leverages off your investment in a wireless network. With Wi-Fi comes the freedom of choice and location, sites are no longer bound by building constraints or legacy locations, the Wi-Fi network blankets the site and allows for new locations without ugly cabling or ducting.
